EXECUTIVE SUMMARY

Hello there, My name is Kautzar and I am currently working for an international fintech company based in Indonesia as a Lead Frontend Developer. I have 5 years experience as a frontend software engineer. I have a BS degree in Computer Science and also have joined an intensive programming bootcamp for 6 months which gave me a comprehensive view about what I can do as a programmer. My skills include, but are not limited to: **React-Next-Redux, React Native, Vue-Nuxt-Vuex, Web 3.0, Node.js** and have experience in web & mobile hybrid development. I am a perseverance programmer, love to learn, explore and implement new tech. Also, have good communication between the team and stakeholders.

FUNCTIONAL EXPERTISE

- Javascript / Typescript / Html & Css/Scss/Tailwind/Styled component
- React / Next js / React Native - Redux
- Vue / Nuxt js - Vuex / Pinia
- OPEN AI API
- Web 3 methodologies (Ethers.js, Third Web SDK, Solidity)
- Node.js & Express
- Git / Github / Bitbucket / Gitlab
- CI/CD Using Gitlab Pipeline and AWS S3
- PWA (Progressive Web App)
- Realtime engine socket.io / Firebase
- Deployment Google Cloud Platform, AWS S3, Heroku, Netlify
