EXECUTIVE SUMMARY

Hello, my name is Kautzar. I am currently a Lead Frontend Developer at a fintech company based in Indonesia, with six years of experience in frontend software engineering. I hold a BS degree in Computer Science and have completed a six-month intensive programming bootcamp, which provided me with a comprehensive understanding of my capabilities as a programmer. My expertise includes React.js, Next.js, Redux, React Native, Vue.js, Nuxt.js, Vuex, AI-based applications, and Node.js. I have experience in both web and mobile hybrid development. I am a dedicated programmer who loves to learn, explore, and implement new technologies. Additionally, I excel in communication with both team members and stakeholders.

FUNCTIONAL EXPERTISE

- **Javascript / Typescript / Html & Css/Scss/Tailwind/Styled component**
- **React / Next js / React Native - Redux**
- **Vue / Nuxt js - Vuex / Pinia**
- **OPEN AI API**
- **Web 3 methodologies (Ethers.js, Third Web SDK, Solidity)**

- **Node.js & Express**
- **Git / Github / Bitbucket / Gitlab**
- **CI/CD Using Gitlab Pipeline and AWS S3**
- **PWA (Progressive Web App)**
- **Realtime engine socket.io / Firebase**
- **Deployment Google Cloud Platform, AWS S3, Heroku, Netlify**
