EXECUTIVE SUMMARY

Hello there, My name is Kautzar and I am currently working for an international tech company based in India. I have 5 years experience as a frontend software engineer. Including 2 years working as a Frontend Lead for an IT consultant company. I have a BS degree in Computer Science and also have joined an intensive programming bootcamp for 6 months which gave me a comprehensive view about what I can do as a programmer. My skills include, but are not limited to: **React-Next-Redux, React Native, Vue-Nuxt-Vuex**, **Web 3.0, Node.js** and have experience in web & mobile hybrid development. I am a perseverance programmer, love to learn, explore and implement new tech. Also, have good communication between the team and stakeholders.

FUNCTIONAL EXPERTISE

- **Javascript / Typescript / Html & Css/Scss**
- **React / Next js / React Native - Redux**
- **Vue / Nuxt js - Vuex / Pinia**
- **Web 3 methodologies (Ethers.js, Thirdweb SDK, Solidity)**
- **Realtime engine socket.io / Firebase**

- **Node.js & Express**
- **Git / Github / Bitbucket / Gitlab**
- **CI/CD Using Gitlab Pipeline and AWS S3**
- **PWA (Progressive Web App)**
- **Deployment Google Cloud Platform, AWS S3, Heroku, Netlify**
